# CONSERVATION COMMISSION BASICS

## Environmental Handbook for Massachusetts Conservation Commissioners

A comprehensive guide  
to the laws  
regulations and  
programs protecting  
land and water resources  
in Massachusetts

Alexandra D. Dawson, J.D. Sally A. Zielinski, Ph.D.

Massachusetts Association of Conservation Commissions

Eighth Edition with updates ©2002

Environmental Handbook for Massachusetts Conservation Commissioners. Alexandra D. Dawson, J.D. and Sally A. Zielinski, Ph.D. MACC. Eighth Edition with Revisions ©2002. Everything a Commissioner should know about how a Commission operates, acquiring land, other state and federal programs. Contains text of many relevant statutes. Includes all material in the 2000 & 2002 Revisions Packets described below.

401 pp. #066 \$35.00

**HANDBOOK CONTENTS** Introduction • Conservation Commissions: Purpose and Duties; Structure and Organization; Effective Operations • Open Space Protection: Purpose and Planning; Acquiring Land; Restrictions and Other Mechanisms; Funding Land Protection; Taxation and Conservation; Management and Stewardship • Wetlands Protection: Law, Science, Values; Wetlands Protection Act; Wetlands Bylaws/Ordinances; Other Water Resource Laws • Related Commission Interests: Laws Administered Locally; State and Federal Laws; Outreach and Advocacy • Reference: Environmental Law-Text; Forms and Model • Useful Publications

---

## 2000 REVISIONS TO THE 1997 EDITION OF MACC's:

Environmental Handbook for Massachusetts Conservation Commissioners

Designed as a set of replacement pages for the 1997 edition. The Wetlands Protection Act chapter (12) has been completely updated and expanded to over 120 pages with over 20 new figures. New sections include the Riverfront Area provisions including the change in the Mean Annual High Water definition, the Notice of Resource Area Delineation process, and "Minor" Projects in the Buffer Zone. In addition to all of Chapter 12, the Revision Packet 2000 includes an updated list of legal cases at the end of Chapter 11, associated Contents pages and Figure list, and an expanded index for the entire Handbook. All material is current as of September 2000.

#191 \$9.00

## 2002 REVISIONS TO MACC's:

Environmental Handbook for Massachusetts Conservation Commissioners

Designed as a set of replacement pages for the 1997 and 2000 editions. The MACC Model Non-Zoning Wetlands Bylaw (Section 19.4.1 and the related bylaw Chapter 13) have been updated. 25 pp.

#210 \$3.00

# WETLANDS PROTECTION ACT

LAW • REGULATIONS • POLICY • INTERPRETATION

- Wetlands Protection Act. Current text of GL Ch.131, sec.40, the law on which the Wetlands Regulations are based. #006 \$1.00
- Wetlands Protection Act Pamphlets. MACC. 2001. Easy-to-read guide to the Act and its importance. Useful to give to homeowners, realtors, builders and interested citizens. #103 \$14.00 for 50
- Wetlands Protection Act Regulations. DEP. 310 CMR 10.00. Current text as of March 2005. 15S0 pp. #002 \$9.00
- Wetlands Protection Program Policies. 1999. DEP policies interpreting the Wetlands Protection Act and Regulations. 33 pp. #012 \$4.00
- Legal Decisions Relevant to the Administration of the Massachusetts Wetlands Protection Act. MACC. 1993. Text of cases. 200 pp. #007 \$7.00
- Farming in Wetland Resource Areas: A Guide to Agriculture and the Massachusetts Wetlands Protection Act. DEP. 1994. Explains the agricultural exemption to the Act and provides information about farming practices and wetland resource areas. 100 pp. #017 \$10.00
- 
- CERTIFIED: A Citizen's Step-By-Step Guide to Protecting Vernal Pools. Massachusetts Audubon Society. 1997. Detailed how-to booklet on nine important steps toward preserving and protecting endangered vernal pool resource areas. 112 pp. #091 \$10.00
- Vernal Pool Lessons and Activities. Massachusetts Audubon Society. 1997. A curriculum companion to CERTIFIED: A Citizen's Step-by-Step Guide to Protecting Vernal Pools. Material appropriate for students in grades 3 through 12. 52 pp. #057 \$8.00
- Wetlands Enforcement Manual. DEP. 2004. A guide to effective compliance with the Massachusetts Wetlands Protection Act Regulations. #112 \$7.00

Environmental Law and Enforcement. Gregor I. McGregor, Esq. Lewis Publishers. 1994. Practical guide that takes the mystery out of environmental law and related land-use controls. Includes: common sense explanations of environmental law and procedure; thorough explanations of how to check for compliance and what to do about agency enforcement actions; how to be effective when testifying in court or agency hearings; and more. 256 pp. *Hardcover.* #068 \$70.00

Rules for Adjudicatory Proceedings; Administrative Penalty Regulations. See MASSACHUSETTS ENVIRONMENTAL REGULATIONS on page 11.

## WETLAND IDENTIFICATION AND DELINEATION

Delineating Bordering Vegetated Wetlands under the Massachusetts Wetlands Protection Act. DEP. 1995. Handbook providing background information on wetland processes and the regulatory framework, procedures for delineating BVW boundaries, and recommendations for reviewing boundary delineations. 89 pp. #042 \$11.00

National List of Plant Species that Occur in Wetlands: Northeast (Region 1). JFNew Environmental Planners and Consultants. 1999. A pocket-sized field reference for the official federal wetland plant indicator status list. It lists the federally recognized indicator status of wetland plant species alphabetically by both common and scientific names. Fits well in the vest pocket. 90 pp. #223 \$10.00

In Search of Swampland. Ralph W. Tiner. Rutgers University Press. Introduces readers to wetlands and their identification, providing an overview of wetland ecology with emphasis on factors important to wetland recognition. Designed for readers with little or no training in wetland science. 380 pp. #200 \$22.00

Wetland Indicators: A Guide to Wetland Identification, Delineation, Classification, and Mapping. Ralph W. Tiner, Department of Plant and Soil Sciences, University of Massachusetts. Lewis Publishers. 1999. Environmental scientists and others involved with wetland regulations can strengthen their knowledge about wetlands, and the use of various indicators, to support their decisions on difficult wetland determinations. 424 pp. #201 \$75.00

# WETLAND REPLICATION AND RESTORATION

Creating Freshwater Wetlands. Donald A. Hammer. Second Edition. CRC Press LLC. 1997. Clearly demonstrates the step-by-step processes required to restore or create freshwater wetlands. Presents practical advice on choosing sites, getting help, attracting and stocking wildlife, plant selection, and wetland operation and maintenance. 448 pp. Hardcover.  
#069 \$120.00

Wetland Replication: An Evaluation of Massachusetts' Mitigation Policy. Frances Clark. 1990. Five case studies of replication projects under the Wetlands Protection Act. Analysis of procedures and recommendations. 142 pp.  
#116 \$9.00

Analysis of Permitting Activity Involving Wetland Replication Projects in Massachusetts. Ross Dobberteen. 1990. Ph.D. thesis. Analysis of wetlands replication projects under the Massachusetts Wetlands Protection Act from 1983 to 1988. 59 pp.  
#115 \$5.00

Compensatory Wetland Mitigation in Massachusetts. Stephen Brown and Peter Veneman, Department of Plant and Soil Sciences, Massachusetts Agricultural Experiment Station, University of Massachusetts. 1998. A study describing the characteristics of a representative sample of wetland replication projects selected from a random sample of 44 towns in Massachusetts.  
#198 \$10.00

Massachusetts Inland Wetland Replication Guidelines. DEP. March 2002. This document provides new replication guidelines for inland bordering vegetated wetlands (310 CMR 10.55) to meet the performance standards for this wetland resource area.  
#212 \$5.00

# FORESTRY AND AGRICULTURE

Forest Stewardship Source Book. Forest Stewardship Program & Mass. Forestry Association. 1996. Easy reference guide to a broad range of topics related to forest ownership in Mass. Covers subjects from forest ecology to tax laws, tree harvesting to habitat management, wetlands protection to educational programs. 50 pp.  
#059 \$4.00

Northern Forested Wetlands: Ecology and Management. C. Trettin, D. Grigal, M. Jurgensen, M. Gale & J. Jeglum. CRC Press LLC. 1997. Current global synthesis of the ecology and management of northern forested wetlands. 512 pp. Hardcover.  
#076 \$109.00

A Woodlot Owner's Guide: How to Get More Out of Owning Woodland in Massachusetts. Michael Mauri, MA Licensed Forester. Introduction to owning and managing forestland, focusing on MA. On glossy paper with 28 woodland photos, one table, one chart, plus "Additional Resources" section. Conservation Commissioners will gain insight into the options available to private woodlot owners and to Commissions managing town land. 22 pp.  
#220 \$9.95

Farming in Wetland Resource Areas: A Guide to Agriculture and the Massachusetts Wetlands Protection Act. See WETLANDS PROTECTION ACT.

# WETLAND SCIENCE AND POLICY

Treatment Wetlands. R. H. Kadlec & R. L. Knight. CRC Press LLC. 1996. Complete guide to using wetlands for water quality management and habitat creation. Includes excellent case histories. 928 pp. Hardcover. #080 \$140.00

Wetlands Environmental Gradients, Boundaries, and Buffers. G. Mulamootil, B. Warner & E. McBean. CRC Press LLC. 1996. Focuses on current topics and research related to wetland delineation; summarizes the main issues of concern; and provides recommendations on research needs. 320 pp. Hardcover. #117 \$85.00

Wetlands. William J. Mitsch & James G. Gosselink. Third Edition. John Wiley & Sons, Inc. 2000. The definitive text on wetland ecology. Commonly used in college wetlands courses. Newly drawn illustrations with about 700 new citations since 1993 edition. 920 pp. Hardcover. #047 \$105.00

Wetlands Guide to Science, Law and Technology. Mark S. Dennison & James F. Berry. Noyes. 1993. A practical guide to issues concerning wetlands with numerous examples and case studies of how specific issues should best be addressed. 439 pp. Hardcover. #022 \$160.00

Hydrology Handbook for Conservation Commissioners. DEP. March 2002. This revised manual replaces and updates the 1987 DEP handbook entitled "Basic Hydrologic Calculations for Conservation Commissioners" and provides additional technical information that was not available earlier. #211 \$20.00

Effects of Stormwater Surface Runoff on Freshwater Wetlands. Richard B. Newton. University of Massachusetts. 1989. Evaluates current knowledge and suggests regulatory standards. 77 pp. #123 \$7.00

Hydric Soils of New England. Ralph W. Tiner, Jr. & Peter L.M. Veneman. University of Massachusetts Extension. 1995. Concept and application of hydric soils in wetland identification. 28 pp. #064 \$14.00

## FIELD GUIDES PLANTS

Plants in Wetlands. Charles B. Redington. Kendall Hunt Publishing. 1994. A unique field guide to biological interactions between plants and wildlife. 393 pp. #041 \$58.00

- A Field Guide to Coastal Wetland Plants of the Northeastern United States. Ralph W. Tiner, Jr. University of Massachusetts Press. 1987. Strong focus on plant identification. Descriptions and drawings. 285 pp.  
#035 \$21.00
- Freshwater Wetlands: A Guide to Common Indicator Plants of the Northeast. Dennis Magee. Drawings by Abigail Rorer. University of Massachusetts Press. 1981. Guide on identifying vascular plant species indicative of wetland environments. Covers 1825 species. Includes line drawings & information on range, habitat and physical characteristics. 245 pp.  
#034 \$22.00
- National Audubon Society Field Guide to Wildflowers: Eastern Region. William A. Niering, Nancy E. Olmstead & John W. Thierer. Alfred A. Knopf, Inc. 2001. Fully revised with more than 950 all-new full-color images to make field identification easier than ever. Descriptions of wildflowers including grasses, sedges and many flowering vines and shrubs. Species grouped by color and shape. 879 pp.  
#036 \$22.00
- Newcomb's Wildflower Guide. Lawrence Newcomb. Little, Brown & Co. 1977. Standard guide for botanists using a simple, quick and highly regarded key to wildflowers, flowering shrubs and vines of the Northeast. 490 pp.  
#108 \$21.00
- Common Marsh, Underwater and Floating-Leaved Plants of the United States and Canada. N. Hotchkiss. Dover Publications. 1972. Nearly 300 plants and 750 to-scale illustrations for quick and accurate identification. 124 pp.  
#095 \$15.00
- Fruit Key and Twig Key. W. Harlow. Dover Publications. 1946. Guide to fruits and seeds. Over 350 photographs and descriptions make winter field identification easy. 56 pp.  
#107 \$5.00
- Trees and Shrubs. Peterson Field Guide Series. George A. Petrides. Houghton Mifflin. 1986. 646 species illustrated and described. Includes wild trees, shrubs and woody vines. 428 pp.  
#061 \$20.00
- The Tree Identification Book. George W. D. Symonds. William Morrow & Co. 1958. 1500 photographs of bark, twigs, buds, leaves, flowers and fruits. Easy to use and still current. 272 pp.  
#133 \$22.00
- The Shrub Identification Book. George W.D. Symonds. William Morrow & Co. 1963. 3500 photographs, many of detailed features, in actual size. An essential guide for shrubs. Companion to above book. 379 pp.  
#132 \$24.00
- A Guide to Aquatic Plants in Massachusetts. Wanda Kelly. New England Aquarium. 1999. A user-friendly guide to common aquatic plants in Massachusetts put together with help from a Sweet Water Trust Grant and the input of local citizen monitoring groups, local state agencies and plant taxonomists. A key that looks at the shape, color, smell and habitat to aid in identification. 32pp.  
#213 \$3.00

Field Guide to Nontidal Wetland Identification. R. W. Tiner. Institute for Wetland & Environmental Education & Research (IWEER). 1988. Includes keys to identifying approximately 300 wetland plants common to freshwater wetlands from Florida to New England. Also includes illustrations of more than 270 species.

Entire text including 198 color plates	283 pp. + plates	#142	\$45.00
Wetland plant identification section only			
(no color plates)	281 pp.	#143	\$23.00

Winter Guide to Woody Plants of Wetlands and Their Borders:

N E US. R. W. Tiner. IWEER. 1996. Intended to aid in winter identification of trees, shrubs, and wood vines growing in wetlands and along their borders. Includes keys and illustrations to over 100 plants. 91 pp.

#144 \$16.00

Grasses: An Identification Guide. Lauren Brown. Houghton Mifflin. 1979.

Covers 135 species of grasses, sedges, and rushes. Includes nearly 400 drawings. Focuses on the northeast and midwest. 240 pp.

#163 \$16.00

Field Guide to the Grasses, Sedges and Rushes of the United States. E.

Knobel. Dover Publications. 1980. Easy to use, pictorial, keyed survey of important species. 500 illustrations. 96 pp.

#093 \$5.00

Flora of the Northeast - A Manual of the Vascular Flora of New England and Adjacent New York. Dennis W. Magee and Harry E. Ahles. Drawings by Abigail Rorer. University of Massachusetts Press. 1999. In contrast to being a field guide, it is a taxonomic manual and is particularly useful because it focuses on the northeast. 1264 pp.

#195 \$77.00

Ferns. Peterson Field Guide Series. Boughton Cobb. Houghton Mifflin. Over 500 illustrations show all species of Northeastern & Central American ferns, from roots to topmost leaves, with sketches of details. Also included are chapters on life cycles, fossil ferns & garden uses. 281 pp.

#164 \$18.00

The Vascular Plants of Massachusetts: A County Checklist. 2000. Bruce A. Sorrie and Paul Somers. Massachusetts Division of Fisheries and Wildlife - Natural Heritage and Endangered Species Program. Current nomenclature for 3119 native and introduced vascular plant taxa and recognized but unnamed hybrids, found currently or historically in the Commonwealth. 186 pp.

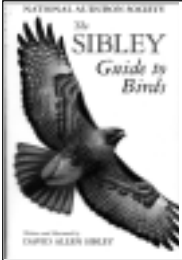

#196 \$7.00

Threatened and Endangered Plant Species Field Guide. Southern New England Forest Consortium, Inc. Lists the rare and endangered forest plant species of Southern New England. Individual species fact sheets contain a wealth of botanical data on 26 forest plant species. Funded by the Massachusetts and Connecticut Stewardship Committees and The Wharton Trust. #209 \$9.00

Wildflowers and Winter Weeds. Lauren Brown. W.W. Norton. 1986. Identifies over 135 common weeds and wildflowers of the northeastern US, each illustrated with a full-page line drawing. 252 pp. #128 \$14.00

Winter Botany. W. Trelease. Dover Publications. 1967. Winter identification of over 1,000 vines, shrubs and trees. 396 pp. #109 \$13.00

## FIELD GUIDES WILDLIFE AND GENERAL

National Audubon Society: The Sibley Guide to Birds. David Allen Sibley, author, illustrator. Alfred A. Knopf, New York. 2000. More than 6,600 illustrations and descriptions of 810 species and 350 regional populations. Shows many previously unpublished field marks and revisions of known marks. 545 pp. #194 \$38.00

The Field Guide to Wildlife Habitats of the Eastern United States. J. Benyus. Illustrated by G. Wolff. Simon and Schuster. 1989. All 20 habitat descriptions include geological and ecological histories, essays illuminating special features and three wildlife profiles. 336 pp. #134 \$23.00

Pond and Brook. Michael Caduto. University Press of New England. 1990. Examines many types of pond, lake, stream, river and wetland organisms. Includes information on ecology of fresh water habitats and effects of pollution. 288 pp. #100 \$22.00

Bogs of the Northeast. Charles W. Johnson. University Press of New England. 1985. Treats bogs in a comprehensive and authoritative manner. Includes descriptions of unusual plants, animals and ecological relationships. 270 pp. #166 \$25.00

National Audubon Society Field Guide to New England. Peter Alden and Brian Cassie. A. Knopf, N.Y. 1998. 1,350 color photos covering about 1,000 species broken down to about 400 flora and 600 fauna common to New England. 448 pp. #187 \$22.00

A Field Guide to the Dragonflies and Damselflies of Massachusetts. Blair Nikula, Jennifer Loose and Matthew Burne. Massachusetts Natural Heritage and Endangered Species Program. 2003. Color photos of all male and most female species found in Mass. Accounts of each species' diagnostic characteristics, range, flight period, habitat and behavior. 197 pp. #216 \$25.00

A Guide to Common Freshwater Invertebrates of North America. J. Reese Voshell, Jr. Illustrated by Amy Bartlett Wright. McDonald & Woodward Publishing Co. 2002. Provides substantive information in non-technological language for about 100 of the most common groups of invertebrates found in the inland waters of N. America. 454 pp. #218 \$25.00

Pond Life. A Golden Guide from St. Martin's Press. George K. Reid. 2001.  
Pocket-sized guide which describes and illustrates in full color plants and  
animals that live in or near ponds, lakes, streams and wetlands. 160 pp.  
#096 \$8.00

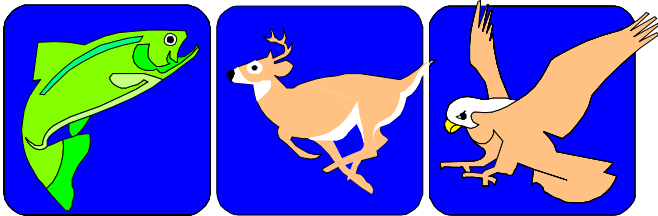

A Guide to Amphibians and Reptiles. Stokes Nature Guides Series. Thomas  
F. Tynning. Little, Brown and Co. 1990. Covers the courtship, breeding,  
territorial, migration and hibernation habits of turtles, snakes, frogs, sala-  
manders, alligators and lizards. Collaboration between Tom Tynning, expert  
on the behavior of reptiles and amphibians, and noted nature authors  
Donald and Lillian Stokes. 416 pp. #165 \$16.00

Amphibians and Reptiles of New England: Habitats and Natural History. R.  
DeGraaf and D. Rudis. University of Massachusetts Press. 1983. A guide to  
the natural history and habitats of the inland amphibians and reptiles of New  
England. Aimed at biologists, naturalists, professionals, students and  
others. A must for vernal pool identification. 85 pp.  
#129 \$18.00

American Wildlife and Plants. Martin, Zim & Nelson. Dover Publications, Inc.  
1961. Describes food and feeding habits of more than 1,000 species of birds  
and mammals and their plant-animal relationships. 500 pp.  
#101 \$13.00

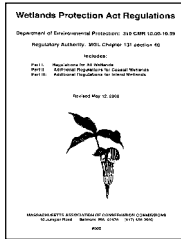

Shells of the Atlantic and Gulf Coast and the West Indies. Peterson Field  
Guide Series. 4th Edition. 2001. R. Tucker Abbott and Percy A. Morris.  
Houghton Mifflin Co. Completely revised and updated with new color  
photographs showing more than 1000 shells. Updated species descriptions  
include common and scientific names, geographical range, habitat identify-  
ing features and information on life cycles. 512 pp. #027 \$19.00

A Field Guide to the Animals of Vernal Pools. Leo P. Kenney, Matthew  
Burne. Massachusetts Division of Fisheries & Wildlife, Natural Heritage and  
Endangered Species Program. An introductory reference to the specialized  
creatures that depend upon vernal pools. Full color photographs. 73 pp.  
#192 \$14.00

# MASSACHUSETTS ENVIRONMENTAL REGULATIONS

## Current Text

Wetlands Protection Act Regulations. DEP. 310 CMR 10.00. Current text as of March 2005. 160 pp.	#002	\$9.00
401 Water Quality Certification Regulations. DEP. 314 CMR 9.00. 20 pp.	#181	\$2.00
Surface Water Quality Standards Regulations. DEP. 314 CMR 4.00. 111 pp.	#182	\$6.00
Self-Help & Urban Self-Help Programs. EOE. 301 CMR 7.00. 30 pp.	#152	\$3.00
Massachusetts Environmental Policy Act (MEPA) Regulations. EOE. 301 CMR 11.00. 55 pp.	#016	\$4.00
Areas of Critical Environmental Concern (ACECs). EOE. 301 CMR 12.00.	#154	\$3.00
Coastal Zone Management; Coastal Zone Management Federal Consistency; Coastal Facilities Improvement Program. EOE. 301 CMR 20.00-22.00. 74 pp.	#156	\$5.00
Dam Safety Regulations. DEM. 302 CMR 10.00. 22 pp.	#176	\$3.00
Rules for Adjudicatory Proceedings; Administrative Penalty. DEP. 310 CMR 1.00; 5.00. 32 pp.	#023	\$4.00
Environmental Code: Title 1-General Application and Administration; Title 5 - Minimum Requirements for the Subsurface Disposal of Sanitary Sewage. DEP. 310 CMR 11.00-15.00. 102 pp.	#158	\$7.00
Waterways Regulations. (Chapter 91). DEP. 310 CMR 9.00. 56 pp.	#171	\$4.00

- Endangered Wildlife and Wild Plants; Exotic Plants; Massachusetts  
Endangered Species Act Regulations. DFW. 321 CMR 8.00-10.00.  
54 pp. #159 \$5.00
- Rights of Way Management. Pesticide Board. 333 CMR 11.00. Governs the  
application of herbicides along railroad, highway and utility rights-of-way.  
10 pp. #161 \$3.00
- Pesticide Board. Pesticide Board. 333 CMR 1.00-12.00. Includes Rights of  
Way Management Regulations. 92 pp. #162 \$5.00
- Forestry Regulations. (formerly Forest Cutting Regulations)  
DEM. 304 CMR 7.00, 8.00 and 11.00 33 pp. #120 \$4.00
- Renovation of Abandoned Cranberry Bogs Regulations. DEP. 310  
CMR 23.00. 6 pp. #126 \$1.00
- Densely Developed Areas Regulations. EOE. 301 CMR 10.00. 12 pp.  
#139 \$2.00

## MUNICIPAL BYLAWS

MACC Model Wetlands Protection Bylaw/Ordinance. MACC. 2002. This Model non-zoning wetlands bylaw/ ordinance is updated to reflect changes in wetlands law, science and policy. It is included and should be read in conjunction with Chapter 13 of the Environmental Handbook for Massachusetts Conservation Commissioners. 10 pp. REVISED VERSION. (The 2002 Revision Packet includes the bylaw and updated Chapter 13 - see pg. 2)  
#140 \$2.00

Legal Decisions Relevant to the Administration of Local Wetlands Protection Bylaws. MACC. 1993. Text of cases. 110 pp. #037 \$7.00

MACC has posted electronic versions of a number of local wetland bylaws and ordinances, regulations and policies on its Web site: [www.maccweb.org](http://www.maccweb.org). The postings are part of MACC's efforts to help Conservation Commissions adopt new bylaws and regulations and improve existing ones through a project funded in part by a grant from the National Fish and Wildlife Foundation (NFWF).

# OPEN SPACE PROTECTION AND LAND USE

Conservation and Land Use Planning with Massachusetts' Chapter 61 Laws. Keith Ross and Scott Wallace for Mount Grace Land Conservation Trust. 1990. Outlines how municipalities and conservation organizations can best utilize the town's right of first refusal to protect open space. 12 pp.  
#114 \$5.00

Land Conservation Options: A Guide for Massachusetts Landowners. Wesley T. Ward, Editor. Essex County Greenbelt Association and the Trustees of Reservations. 1999. 40 pp. #053 \$7.00

Open Space Pays. New Jersey Conservation Foundation and New Jersey Department of Environmental Protection. Outlines the reasons for open space protection — highlighting six economic arguments. 45 pp.  
#055 \$4.00

Saving Special Places: A Centennial History of the Trustees of Reservations: Pioneers of the Land Trust Movement. The Trustees of Reservations. 1993. Includes the 100-year history of the Trustees along with stories and information on some of the properties they protect. 334 pp.  
#046 \$21.00

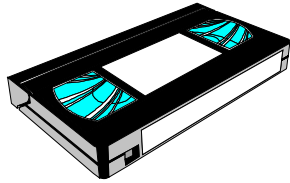

Doing Deals: A Guide to Buying Land for Conservation. The Land Trust Alliance and the Trust for Public Land. 1995. Provides practical information on land acquisition. Explains the basics of conservation real estate and describes the technical, legal and financial strategies necessary for successful conservation transactions. 175 pp. #067 \$32.00

## VIDEOS AND SLIDES

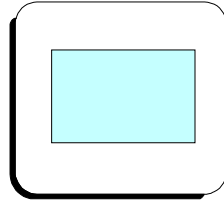

The Wealth in Wetlands. Narrated by Leslie Nielsen. National Association of Conservation Districts. Interviews with five farmers who describe the value of retaining wetlands on their farms. 23 minutes.

Purchase #202 \$15.00

Keeping Soil on Construction Sites: Best Management Practices. Ohio Federation of Soil and Water Conservation Districts. Training program covering erosion and sedimentation control through soil stabilization, phased construction, silt fence installation and retention basins. 50 minutes.

Purchase #204 \$20.00

Wetland Plant Identification in Massachusetts. Over 100 35mm color slides prepared by MACC and DEP. Documentation included. Pre-paid for one month rental.

Rent for one month #205 \$20.00

Diving Into Wicked Big Puddles - A Vernal Pool Resource Kit for Educators. Edited by Leo P. Kenney. Produced by the Vernal Pool Association at Reading Memorial High School. It is developed by students and teachers for the uses of other students, teachers and environmental educators. Includes 80 slides. 136 pp.

#188 \$80.00

## EROSION AND SEDIMENTATION CONTROL

Stormwater Management Handbooks. DEP & CZM. 1997. Volume 1: Stormwater Policy Handbook. New state standards and their application. 45 pp. Volume 2: Stormwater Technical Handbook. Site design and best management practices.

200 pp. #119 \$17.00

Keeping Soil on Construction Sites: Best Management Practices. Video. See VIDEOS AND SLIDES.

# WATER RESOURCES

People Protecting Rivers: A Collection of Lessons from Successful Grassroots Activists. River Network. 1992. Describes five successful strategies including the Charles River in Massachusetts. 72 pp. #177 \$11.00

The Beaches are Moving: The Drowning of America's Shoreline. W. Kaufman and O. Pilkey, Jr. Duke University Press. 1983. Comprehensive background and overview of human impacts on beaches. 336 pp. #137 \$21.00

Managing Lakes and Reservoirs.

North American Lake Management Society & the Terrene Institute in cooperation with U.S. EPA. 2001. Contains as much new lake management information as possible. Focus shift from restoration to management. 382 pp. #222 \$33.95

# SPECIAL INTEREST

The Year of the Turtle - A Natural History. David M. Carroll. St. Martin Press. 1991. A book about turtles, wild places, open space, solitude and silence. Full-color paintings and drawings. 172 pp. #189 \$15.00

A World in Our Backyard - A Wetlands Education and Stewardship Program. Stafford Madison and Melissa Paly. Environmental Media Corporation. A resource book about wetlands in New England for educators and others. Accompanying video cassette available separately. 144 pp. #199 \$28.00

Swampwalker's Journal: A Wetlands Year. David M. Carroll. Houghton Mifflin. 1999. Each chapter takes the reader into a different wetland type (including vernal pools) where the author goes about his field work, encountering many kinds of plants and animals. The reader learns about specific ecologies and the plant and animal species that are most typical of each wetland type. 277 pp. #214 \$14.00

Vernal Pools - Natural History and Conservation. Elizabeth Colburn. McDonald & Woodward Publishing Co. 2004. A well-organized, substantive, readily accessible resource presenting detailed information about the ecology of vernal pool systems and discusses important research, conservation, and policy needs for pools to be better understood, protected and managed. Includes an extensive bibliography on vernal pools. 456 pp. #219 \$25.00

Northern Forest Mammal Tracking Card. Keeping Track, Inc. A 4" x 6" laminated card with information including accurate renderings for 31 mammal species and a 6 inch ruler. Mammals are divided into four movement categories: Walkers, Waddlers, Hoppers, and Bounders, with front and hind prints, stride and straddle measurements. It is attached to a sturdy ring, making it easy to carry around. #217 \$6.00
